

K-Love has been such an inspiration to me in the past 6 years. When I first moved to Norman, OK, I was a new mom soon afterwards. Things were very complicated at birth for my son, Grayson. During the many weeks to follow in the N.I.C.U. I received continuous inspiration from K-Love when it felt like we couldn't go on! K-Love supports wholesome values and has a positive and encouraging impact on communities all across America. We could all use that in this day and time! I would rather my children listen to edifying music than many of the other choices that are offered on the radio. Please do not replace this positive and encouraging K-LOVE signal with a LPFM signal that could never replace this wonderful wholesome station.

A very concerned mom!

Susan Walker
